SUMMARY

Junior Software Developer with expertise in both front-end and back-end solutions. Skilled in leveraging HTML5, CSS, JavaScript, Spring Boot, and Angular to develop efficient software applications. Recognized for innovative contributions to software solutions and application development.

EXPERIENCE

FULL-STACK DEVELOPER

FDM GROUP   **September 2022 - August 2023, New York, NY**

· Achieved a 30% increase in data precision by refining both backend and frontend components with the integration of custom SQL queries.
· Overhauled the front-end using advanced HTML5, CSS, and JavaScript techniques, driving a notable rise in user satisfaction.
· Amplified efficiency by 25% with the strategic integration of a calendar feature, offering in-depth attendance insights and optimizing resource allocation.
· Played a pivotal role in architecting an intuitive user interface with Angular, prioritizing a user-friendly experience and swift access to vital training assets such as lessons and videos.
· Championed the integration of a structured repository, expediting the onboarding process by 40% and ensuring 24/7 access to vital HR and company documents.
· Actively collaborated with the development team, contributing to the formulation of RESTful endpoints in Spring Boot, and ensured seamless integration with front-end services.

FRONTEND DEVELOPER

JFABULOUS LLC   **May 2022 - September 2022, Miami, Fl**

· Led the company's digital transformation initiative, architecting and deploying a mobile-responsive website that resulted in a 40% increase in product visibility and user engagement.
· Leveraged advanced HTML5, CSS, and JavaScript techniques to boost website functionality, achieving improvement in user interactivity and ensuring a seamless experience across various devices.
· Strategically enhanced website speed, achieving a 30% reduction in load times by implementing efficient image scaling strategies and optimizing file structures.

IT ASSISTANT

MDCPS   **July 2017 - June 2018, Miami, Fl**

· Supported the IT Department by setting up computer labs, ensuring 100% readiness for the academic year, and enhancing the learning environment by 20% through collaboration.
· Boosted productivity by 30% by overseeing key software such as MS Office and QuickBooks, and increased tool utilization by 50% with updates and training.
· Delivered technical support with a 95% first-contact resolution rate, reducing downtime by 80% for faculty and students.

SKILLS

· **Web Development: HTML5, CSS, JavaScript, TypeScript**
· **Backend Technologies: Java, Spring Boot, SQL, RESTful services**
· **Frameworks: Angular, React (basic knowledge), Git**
· **Tools & Platforms: Jira, Agile/Scrum methodologies, , Microsoft Office Suite (Word, Powerpoint)**
· **Languages: Fluent in Spanish and English**
